Thanks Kristine! One last question – have the 2 FS databases been finalized, or do you anticipate further changes before the FS is finalized? Thanks again,

Nick

Nick – The files are too large for me to email them to you. I will have my contractor send you an FTP link for the data base and the riverbank compilation data. They are in two separate files.

Regards,

Hi Kristine,

You had previously provided me with a link to the draft final FS database and indicated that the database was due to be updated by early 2016 (see below). Has the FS database been finalized and, if so, would it be possible for me to obtain an electronic copy?

Thanks!

Nick

Yes. Right now the data is in multiple hardcopy reports from DEQ. We are working to incorporate the data into the database. This will be released in the next version early in 2016.

Thanks Kristine!

The link worked fine. I opened the file and noticed that it only contains data for surface and subsurface sediments. Given that the draft final FS also addresses contaminated riverbanks, do you anticipate that riverbank soil data will be added to the database at a later date? Thanks!

Hi Kristine and Alanna,

Thanks for the link to the Portland Harbor FS. Kristine is correct regarding the FS database – it is not available via the link. I suspect that the database file will be too big to email. Would it be possible to add it to the FTP link? If not, could it be sent to my email address using a file transfer service (wetransfer.com is free and very easy to use). Thanks for your help!

Nick

Alanna – I don't believe the FS database was attached. If not, let me know and I will send it on. It may be too large of a file, but I'll let you know once I get it.

Hello,

The link below may be used to access the DRAFT Final Feasibility Study (FS) text, figures, maps, and tables. NOTE this is a DRAFT FS. EPA will periodically update the site as necessary edits to the FS are completed.

ftp://ftp.epa.gov/reg10ftp/sites/portlandharbor/2015_Draft_Final_FS/

Hi Alanna,

I understand that you are EPA's point of contact for the Portland Harbor Superfund site. I am trying to obtain an electronic copy of the Microsoft Access analytical database developed by EPA for the draft final Feasibility Study, which I understand is part of Appendix A to that document. Is there a web link available to download the FS analytical database? If not, how can I most readily obtain an electronic copy of the database? Thanks!
